

31 March 2019

The Principal and ICT Head
Primary School and High School
In Australia

Dear Principal and ICT Head:

We, from MINDCAN, in partnership with Redeemer Lutheran College, are proud to introduce WER (World Educational Robot Contest) Australia Open 2019 to your School.

WER is one of most prestigious educational robot contests, for children in the age group 4-18 years old. WER was founded in 1994 by American Professor Jake Mendelssohn. Since 1994, WER has developed rapidly throughout the world. It incorporates the most comprehensive technologies and vital platform for hand-on STEM practice. Every year WER inspires and attracts over 500,000 young participants from more than 50 countries to the competition at international level.

Participants in WER bring great honours to their school and countries. Some participants will be awarded scholarship and receive credit for some university's admission.

Last year, MINDCAN successfully organised the WER Queensland 2018 at Macgregor State School Queensland, there were significant numbers of school and government officials participated in the contest. This year, MINDCAN will hold WER Australia Open 2019 in Queensland at 3-4 Aug 2019, in the contest, the winner would be eligible to WER World Final, representing your school for national and potentially the international awards.

MINDCAN is a professional STEM institute in Brisbane, founded by STEM educators and enthusiasts in teaching Coding, Photoshop, Web programming and Robotics for young students.

MINDCAN has applied several kinds of STEM course in Redeemer Lutheran College campus, with reputation on interactive demonstration, online cross-cultural course, and customized small team program, with WER recognized robot series.

We are very pleased to invite your school to participate the WER Australia Open Contest from this year, which will be held in Queensland at Aug 3 – 4 2019.

We would love to hear from you, with the hope of your participation in our WER robot contest this year.

Welcome to WER Australia Open 2019, with international, interstate and local school students together.

Best Regards,

Johnson Yeung

CEO
